The Robinson Street Underpass Project from 500 feet west of Flood Avenue to 500 feet east of Stubbeman Avenue is a \$25 million street improvement project approved by the Norman voters as part of the 2005 Bond Election. Construction began on the project on Monday, June 14, 2010. The Oklahoma Department of Transportation is responsible for the construction of the project. The prime contractor is Manhattan Road and Bridge of Oklahoma City.

Beginning Monday, July 12, 2010, OG&E will be closing the outside lanes of Robinson Street between Flood Avenue and Fay Avenue in order to relocate the power distribution system for this project. One lane of traffic on Robinson in each direction will remain open throughout this period. The intersection of Robinson Street and Flood Avenue will remain open. Weather permitting; the outside lanes will be reopened to traffic by Friday, July 16, 2010. Additional questions may be directed to Matthew Elliot, City of Norman Utilities Coordinator, at 366-5265.
